

Safe Recruitment, DBS and Confidential Declarations - Practical Guidance

In June 2015, the Church of England published a new policy and guidance for safer recruitment for people working or volunteering with children and adults. This addresses two key areas – the recruitment process in general for volunteers and paid workers, and criminal records checks (DBS).

Here we aim to set out the key points and principle changes from our existing policy, which will be updated in due course to reflect the changes. Where there is a significant change to the existing policy (e.g. where a role now needs to be DBS checked that wasn't before), this is highlighted with the word **CHANGE**.

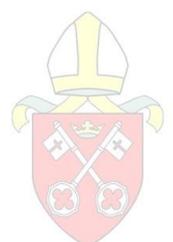

Process

When recruiting someone for a voluntary or paid role, you should make sure the following are done:

1. A clear **job description** or role is needed, which sets out what tasks the applicant will do and what skills are required. This also needs to say whether a DBS check is required (see below for more information on DBS). If the role is paid, this needs to be a formal job description/person specification. If it is a voluntary role, a simple job role may be used.
2. An **application form** is always required for a paid role to ensure that the applicant is suitable for the post. It is also good practice to use an application form for voluntary roles.
3. Always ask for and take up **references**, asking specifically about the applicant's suitability to work with vulnerable people.
4. Everyone working with children and/or vulnerable adults should complete a **Confidential Declaration Form** (regardless of whether they also have a DBS check) which, broadly, asks if there is any reason why they should not be working with vulnerable people. If any information is disclosed, you should contact the Diocesan Safeguarding Adviser for advice on how to proceed. If the applicant does not wish to complete the form, the application must not proceed and must be terminated.
5. There should always be an **interview or discussion** with clear pre-planned questions with the applicant about their suitability for the role. This may incorporate pertinent information from the application form, Confidential Declaration Form and references.
6. If the role involves working regularly with children and/or vulnerable adults, then a **DBS check** will be required at some level (see below for more information). A role with some occasional contact with children and/or vulnerable adults, or a leadership role such as churchwarden, may also be eligible for a DBS check. If the applicant does not wish to complete a DBS check, the application must not proceed and must be terminated.
7. The **decision** to appoint someone to paid or voluntary work must be made by those who have that authority (usually the PCC at parish level, or their delegated person). All paid posts should receive a letter of appointment. It is also good practice for volunteers to receive a letter of appointment as well, which may include both the church's commitment to its volunteers and what it requests from them.

8. An **induction** is always required for roles that include working with vulnerable people. This should include relevant safeguarding training from the Diocese (see the Diocesan website at <http://dioceseofyork.org.uk/safeguarding/training/> for more information), which should be updated every three years.
9. A **probation**/settling in period is good practice for all roles so that both the person and the church can see whether they are suited to the role. For paid roles, the person's role should be confirmed in writing at the end of the probation period.
10. **Supervision and review** is always required for paid roles, and is also good practice in volunteer roles. The Confidential Declaration Form should be completed every three years (or at least reviewed by the person and re-signed and dated if there is no new information to declare). The DBS check should be renewed every five years – this is the parish's responsibility and no reminder will be sent from the Diocese. The level of DBS check should also be reviewed if the person's responsibilities change, or if they change from working with children to vulnerable adults, or vice versa (please contact the DBS Administrator for advice).

Confidential Declaration Form

CHANGE – These have been required at parish level for some time now for anyone working with children or adults (regardless of whether they also have a DBS check), but will now also be implemented at Diocesan level for clergy and readers. This will be done at the time of appointment for all new appointments, and at the same time as the DBS renewal for anyone not changing role.

Levels of DBS check

The new DBS Information Checklist which is sent out with all application forms aims to get the information that the DBS Administrator needs to request the correct level of check from DBS. Occasionally we may need to contact you for additional information. See page 3 for some examples of who needs to be checked.

There are now more different types and levels of DBS check that can be done, depending on the work that the applicant is doing. These are:

- **Standard** – not generally used by the Diocese anymore – checks for convictions, cautions, reprimands, and warnings only.
- **Enhanced only** – as for Standard, plus any additional local information that may be relevant.
- **Enhanced plus barring** – as for Enhanced, plus includes a check of the DBS barred lists for working with children/adults (as appropriate).

Which level of check is required depends on a number of criteria, including the type of work the applicant is doing, and how frequently they do it. **Broadly speaking, as before, anyone over 16, who has substantial contact with children and/or adults experiencing or at risk of abuse or neglect, will need to have a DBS check at some level.**

Some roles will always be fully checked using Enhanced plus barring for work with both children and adults – this includes all Clergy (including trainee Ordinands and retired Clergy with PTO), and licensed Readers (including those still in training). As before, these are administered centrally, including sending out reminders for renewals when they are due. Undergoing a DBS check is a mandatory condition of the licence for these roles.

Previously, all checks were done at either Standard level (for treasurers) or Enhanced plus barring level for anyone working with children or adults (with the relevant barring list checked).

In Appendix 1 & Appendix 2 at the end of this document are the official lists of what type of work is eligible for each check, but below are some example scenarios of how this applies practically in the church. Please bear in mind that this list is not exhaustive, as there will always be some local variations, so please contact the DBS Administrator if you are not sure.

The main thing to remember is that if you fully complete the DBS Information Checklist with each application, the correct level of check will be done.

Children's Work:

- Anyone working unsupervised with children on a regular basis (meeting the frequency criteria in Appendix 1) will still require an Enhanced plus barring check.

- **CHANGE** – Parish Safeguarding Representatives now require an Enhanced plus barring check, as they are managing people who work with children and/or adults.
- A parish is running a Sunday School each week during their main Sunday service. The children will be taken to a separate room away from their parents; all children and leaders/helpers stay together in one room for the duration. There are four leaders who all help every week – they all require an Enhanced check with barring, because they all meet the frequency criteria (see Appendix 1).
- A parish is running a Sunday School each week during their main Sunday service. The children will be taken to a separate room away from their parents; all children and leaders/helpers stay together in one room for the duration. Occasionally a different person will come to run a one off workshop. The one off helper does not require a DBS check at all, but should still complete the Confidential Declaration form and should be under constant supervision from those who are checked.
- **CHANGE** – A parish is running a Sunday School each week during their main Sunday service. The children will be taken to a separate room away from their parents; all children and leaders/helpers stay together in one room for the duration. There are two people who alternate taking overall charge of the group, plus another five people who are on a rota to help, no more than once or twice a month each. The main leaders of the group who are in overall charge require an Enhanced plus barring check, because they are managing the other helpers. The other helpers require an Enhanced check (without barring) because they do not meet the frequency criteria (see Appendix 1).
- **CHANGE** – A parish is running a Sunday School each week. The group meets in a parishioner's home near to the church each week; all children and leaders/helpers stay together in one room for the duration. There are two people who alternate taking overall charge of the group, plus another five people who are on a rota to help, no more than once or twice a month each. The main leaders of the group who are in overall charge require an Enhanced plus barring check, because they are managing the other helpers, as should the person whose home they are in. The other helpers require an Enhanced check (without barring) because they do not meet the frequency criteria. Any other adults (over 16) living in the home also require an Enhanced plus barring check.
- **CHANGE** – A parish is running a Parent & Toddler group which meets weekly with three leaders. The parents are always with their own children, so no-one is ever unsupervised. However, the leaders require an Enhanced check (without barring), because they are leading/managing a group that involves children.
- **CHANGE** – Those working within the Open The Book programme require a DBS check at Enhanced level (without barring) as they are regularly working (although supervised) in a Specified Establishment.
- **CHANGE** – Worship Leaders, or people who are reading the intercessions in services (for example), do not require a DBS check (but should still complete a Confidential Declaration Form).
- **CHANGE** – In a parish where there is any children's work, churchwardens must all have an Enhanced (without barring) check, even if they are not working with children themselves. This is because the PCC is a charity and its members are the trustees, so these people are classed as trustees of a children's charity.

Adults' Work:

- Most people working with adults within the church will **not** require an Enhanced check with barring. Notable exceptions are:
 - Parish nurses where they may be helping adults with toileting, for example.
 - Home visiting groups that include assisting with shopping.
 - Groups that formally arrange transport to/from healthcare appointments (but not if this is a private arrangement between friends, and not to church activities).
- **CHANGE** – Parish Safeguarding Representatives now require an Enhanced check with barring, as they are managing people who work with children and/or adults.
- **CHANGE** – Recognised Parish Assistants who are working specifically in pastoral care may now require a DBS check at Enhanced level (with/without barring). This depends on what they are actually doing when visiting people. Please contact the DBS Administrator for more information.
- **CHANGE** – Worship Leaders, or people who are reading the intercessions in services (for example), do not require a check (but should still complete a Confidential Declaration Form).
- **CHANGE** – In a parish where there is any work with vulnerable adults (e.g. a home visiting scheme for the housebound, or a lunch club for adults with special needs who need help with feeding etc), churchwardens must all have an Enhanced (without barring) check, even if they are not working with vulnerable adults themselves. This is because the PCC is a charity and its members are the trustees, so these people are trustees of a vulnerable adults' charity.

Other Workers:

- **CHANGE** – Treasurers no longer require a DBS check at any level.

DBS renewals

DBS checks should still be renewed every five years **if the person is in the same role in the same church.**

CHANGE – However, a new check is required straight away where:

- A person changes parish/church
- A person changes from working with children to working with adults (or vice versa)
- The level of check required changes to a higher level (e.g. if it becomes more frequent, or if it becomes Regulated Activity – see Appendices 1 & 2)
- A person starts working with children or adults in the applicant's own home (if they weren't previously)

If someone is changing role or parish, you should always contact the DBS Administrator at Bishopthorpe Palace to confirm whether a new check is required or not.

DBS portability

As before, DBS checks are only accepted from outside the church if the applicant has subscribed to the Update Service. If not, a new check is always required.

CHANGE – DBS checks are no longer portable between parishes (unless the applicant has subscribed to the Update Service and the existing certificate is at the right level).

How to check a DBS certificate that is subscribed to the Update Service:

1. Check whether the certificate is at Enhanced or Standard level – this can be found in big letters at the top of the certificate. This needs to be Enhanced. If not, you need to do a new check.
2. Check the workforce – this can be found within the 'Position applied for' section on the right near the top of the certificate. This needs to include the same workforce (Child, Adult or both) as they will be working with in your church. If not, you need to do a new check.
3. Check for barred list information – on the bottom half of the certificate there are five boxes that may contain information. The barred list checks are the third ('DBS Children's Barred List information') and fourth ('DBS Adults' Barred List information') boxes. If these say "None Recorded" then the barring check(s) was(were) done, and no information was disclosed. If they say "Not Requested" then the barring check(s) was(were) not done. The checks done need to be at the same level as you would have requested for a new application – if you need help with this, please contact the DBS Administrator.
 - As before, if there is any information disclosed in any of the five boxes, you should send the certificate to the DBS Administrator at Bishopthorpe Palace for a confidential risk assessment.
 - Home based working information is **not** available on the Update Service, so if your applicant will be working with children or vulnerable adults in the applicant's own home, you will always need to do a new application.
4. If you are satisfied that the checks were done at the level you need, then check the applicant's ID documents, make a note of their full name, date of birth, issue date and

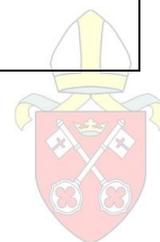

number of the certificate (found at the top on the right), workforce and check level, and send these to the DBS Administrator who will check the details on the Update Service and let you know whether the certificate is still valid. If not, you will need to do a new check.
