

Instructions for making popcorn

You will need:

- A large saucepan with a lid
- 2-3 tablespoons of cooking oil
- ½ a cup of popcorn kernels
- Salt, sugar or your favourite topping

1. Heat the oil and swirl it around so that the bottom of the pot is covered
2. Place one or two kernels in the pot
3. When the kernels have popped, add the rest and swirl around to coat in the hot oil
4. Put the lid on and wait for the corn to begin popping
5. Once the corn begins to pop turn down the heat and shake the pan carefully until the popping stops
6. Pour into a bowl and sprinkle with salt or sugar or your favourite topping
